Mr. Heath Anderson is a visionary and strategic leader with repeated success leading enterprise IT, finance, and human resources operations, developing architecture, and optimizing data analysis. He has extensive experience directing cross-functional teams in the design and integration of leading-edge technology solutions. He is expert at launching technology programs that safeguard data, streamline operations, drive innovation, and advance business strategy, consistently improving delivery times and service levels while reducing costs. ROAM FEDERAL (ROAM) clients benefit from Mr. Anderson's experience with strategic planning, investment management, governance, budget development and management, contract negotiations and management, cyber strategy, infrastructure design and implementation, process improvements and best practices, project management, continuous improvement, cost containment, cloud services, enterprise services and solutions delivery, system architectures, rapid deployments, structured methodologies, datacenter and change management, risk analysis and mitigation, HR, capital operations and management, litigation and legal matters, and law enforcement.

Prior to founding ROAM, Mr. Anderson was Chief Information Officer (CIO) and Chief Privacy Officer (CPO) for the U.S. Capitol Police where he provided executive leadership and oversight of the Office of Information Systems (OIS). He oversaw the technological infrastructure networks and computer systems across USCP to ensure optimal performance and led the transformation to a hybrid cloud environment, migrating enterprise applications and ad hoc applications to cloud solutions. He was Chair of the Legislative Branch CIO Council, identifying efficiencies and cross organization partnering opportunities. Concurrent with the CIO position, Mr. Anderson assumed the position of Director, Office of Human Resources and Chief Human Capital Officer (CHCO), providing strategic leadership over the department's comprehensive human resource functions, turning around a struggling organization. He executed a human resource strategy in support of the overall USCP mission and strategic direction.

Previously, Mr. Anderson was Assistant Director for Application Services at the Department of Justice. He developed and managed an expansive IT portfolio valued at over $50M, delivering IT solutions to the DOJ enterprise, collaborating across 36 headquarters and component offices, boards and divisions that included FBI, DEA, ATF, EOUSA, and U.S. Trustees.

Earlier, he was detailed as Deputy Chief Information Officer (DCIO) at the U.S. Marshals Service (USMS), where he served as the principal advisor on all matters involving the management, administration, direction and control of IT programs of broad scope and complexity in the USMS Enterprise IT portfolio.

As the Director of the Law Enforcement Systems Division of Immigration and Customs Enforcement (ICE), Mr. Anderson led and managed the Homeland Security Investigations, Law Enforcement systems portfolio within the Enforcement Systems Branch, which had an annual IT budget of over $80M. He provided full-service strategic planning, system installations, system conversions and integrations, process improvement, requirements definition, communication management, and other related services to Homeland Security Investigations, Secure Communities, and the Office of International Affairs, directorates of ICE.

Mr. Anderson has a BS in IT Management from Western Governors University and an MS in Management from Johns Hopkins University, Division of Public Safety Leadership. A veteran of the United States Coast Guard and former law enforcement officer. He holds a top-secret security clearance.
